**Tonas Graphics-** Located in Pittsburgh PA. established in 1985, Tonas Graphics is a premier supplier of Innovative Visual Products to the Education Market. Beginning in the 1990's we sold Varitronics (thermal) Poster Printers to schools, at that time the best method however by today's standards they produce low quality posters that use expensive thermal poster paper. Tonas Graphics understands technology and the needs that schools have for improved Visual Communications, that's why over 4 years ago we partnered with Canon and Integrated the EDUCATOR Plus® Full Color Poster Printer.

If you own a Varitronics Poster Printer you can now upgrade to full color and save money. If you haven't yet purchased a Poster Printer for your school this is the best time ever!
