

iPF760 Stand Stacking Feature

1.

After following the stand assembly instruction in section 1 of the Training Video, locate the added stacker table assembly.

2.

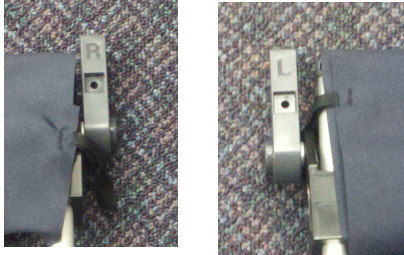

Un-wrap the catch basket drape that is already attached to the stacker table assembly as shown.

3.

The catch basket rails are pre-mounted to the Right and Left legs of the stand.

4.

The mounting flanges located on the right and left side of the stacker assembly are marked R & L

5.

Position the lock handle  behind the pre-mounted catch basket rail as shown 

6.

Use the provided allen tool to secure the right and left mounting flanges with the provided screws.

7.

The Stacker assembly is now installed.
